

▲ SUROSOL® STAINLESS STEEL INDUSTRIAL FOOT

The stainless steel SUROSOL ® foot reduces the vibrations caused by machines in the chemical, petrochemical, pharmaceutical, food-processing industriesIt makes it more comfortable to work by reducing both noise and vibration
It is designed to ensure machines are level and vertically stable.

- 3 Diameters
- 1 Color available (Inox/ Yellow)

PRODUCT BENEFITS

- ▶ Significant reduction in the transmission of vibrations and sounds thanks to the special properties of the materials used
- ▶ Ensure vertical stability (rigid absorbers)
- ▶ Reduce maintenance costs: reduces the coefficient of friction between the machine's parts
- ▶ Extend machines' lifespans
- ▶ Increase productivity through better comfort at work
- ▶ Hygienic stainless steel: highly resistant to corrosion
- ▶ Dry and oily environments
- ▶ Easy to install

- ▶ Adjustable height
- ▶ Stainless steel
- ▶ Self-sealing
- ▶ Attach in place of the machine's feet
- ▶ Other sizes on request

VIBRATION PREVENTION AND PROTECTION

Reference	Height	Maximum load per element	Foot Diameter	Foot height
50 08 88	85mm	3000kg	150mm	44mm
50 08 87	70mm	1500kg	100mm	44mm
50 08 86	65mm	500kg	60mm	44mm
